you need:

- 2 counters
- I-6 dice
- 20 small cubes or other prizes

## Multiples of three for 2 players

## First of all

Decide who has the sun and who has the moon.

Put your counters there.

## When it's your turn

Roll the dice and say the number.
Move that many steps in either direction.
If you land on a multiple of three, you win a prize.
If you land on the sun or the moon you win a prize too.
