

you need:

- 18 'eggs' (use beans or counters)
- 1-3 dice

Nest eggs for 2 players

The jackdaw has moved all the ducks' eggs into one nest.

You are going to help sort them out.

First of all

Put all the 'eggs' in one nest.

When it's your turn

Roll the dice and say the number.

Move that many eggs into a different nest.

Finishing the game

When you think the eggs are shared out fairly, the game is over.

Now pretend that the eggs hatch and the ducklings swim away.
