

**you need:**

- two 0–9 dice
- 20 counters

# Dice wars

 for 2 players**Round 1**

Take turns to roll both dice and say the numbers. Multiply your numbers together and say the answer.

Write it down.

Whose answer is greater?

They take a counter.

**Rounds 2 to 20**

Go on playing until the counters run out.

Who won the most?

They win the game.

**Sample game**

Shannon rolled 2 and 7.

$2 \times 7$  is 14 so she scored 14.

Jordan rolled 4 and 5.

$4 \times 5$  is 20 so he scored 20.

20 is greater than 14 so Jordan took a counter.

Shannon

2 7

$$2 \times 7 = 14$$

Jordan

4 5

$$4 \times 5 = 20$$
