

**you need:**

- four 1–6 dice
- some counters

## Target for 1 person or 2 persons working together

**What to do**

Roll all four dice.

- You can use all the dice numbers or just two or three of them.
- You can use the numbers as they are or put them together to make two-digit numbers.
- You can add, subtract, multiply or divide.

Can you make one of the numbers on the target?

If you can, put a counter on it and record your sum below.

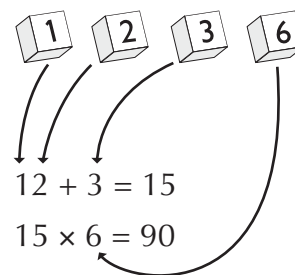

**The rest of the game**

Go on like this.

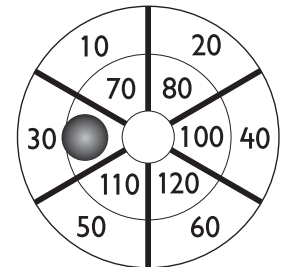

Can you cover every number?

**Sample game**

Roll

Put a counter on 90.

**How I made each number**

- 10
- 20
- 30
- 40
- 50
- 60
- 70
- 80
- 90
- 100
- 110
- 120
