

you need:

- 1–6 dice
- ruler
- pens or pencils

Recognising shapes

Roll the dice.

If you get 1 or 2, roll again.

If you get 3, 4, 5 or 6, say the number.

Then write that number in a shape with that many sides:

If there are none of the shapes you need left, draw a shape with that many sides on the back of the sheet.
