

you need:

- play people
- 0–10 number cards
- a box or tray

Play people

 for 2 players**First of all**

Shuffle the cards and put them in a pile, face down.

When it is your turn

Take the top two cards, in secret.

Put both cards in the box. For each card, put in that many people.

Take out one of the cards and hide it.

Show the box to the other player and see if they can work out your hidden number.

The end of the game

Put both cards to the bottom of the pile

Keep playing like this.

There is no winner.

Sample game

Joe put in the 5 card and the 3 card.

He put in 5 play people, then another 3 play people.

He took out the 3 card and hid it.

Can Safia work out what number Joe is hiding?
