# Three-square

Show this picture to your friend for 10 seconds.

Then ask them to imagine the picture in their heads.

See if they can answer these questions.

1. How many shaded squares are there?
2. How many white squares are there?
3. How many small squares are there altogether?
4. How many sticks are there along the top?
5. How many sticks are there down one side?
6. How many sticks are there around the edge?
7. How many sticks are there altogether?
