

you need:

- a friend
- a bean each
- two copies of the grid on this sheet

Directions

Sit back to back, with a grid each.
Put your bean on the square with a cross.

When it's your turn

Move your bean one square – N, or S,
or E, or W, or NW, or NE, or SW or SE.

Tell your partner what move you made
so they can copy it with their bean;
for example, 'Move one square to
the South-West'.

The end

After 5 goes each, look to see if
your beans are on the same squares.
