

you need:

- counters in two colours
- paper clip and pencil

Angles for 2 players

When it's your turn

Hold the paper clip in the centre of the circle with the pencil, and spin it.

Read out what it says.

Choose a shape which fits the description and put one of your counters on it.

The end of the game

When somebody gets three of their counters in a line, they win.

Play another game. Go on until somebody has won three games.

Rule

If there is nowhere you can put your counter, spin again.
