

**you need:**

- one counter each
- five 5p coins, five 2p coins and five 1p coins each
- a dice
- a box

# Spending Money for 2 players

5p ↑	→ 8p	→ 7p	→ 6p	→ 1p
2p ↑				7p ↓
8p ↑				8p ↓
9p ↑				5p ↓
6p ←	1p ←	5p ←	6p ←	2p ↓

**First of all**

Share out the money. Put your counters on any squares.

**When it's your turn**

Roll the dice and move that many steps round the board.

Read out the amount in that square.

Put that amount of money into the box.

You must put the exact money in the box – if you haven't got the right coins, don't put any money in.

**The end of the game**

The first player to use up all their 5p coins wins the game.
