

you need:

- counters in two colours
- 1–3 dice (you could modify a 1–6 dice)
- 10 ‘prizes’

15 pence

 for 2 players**When it's your turn**

Roll the dice and say the number.

Put counters on that many coins.

When you have covered coins worth exactly 15 pence take a prize.

Remove the counters from those coins.

The end of the game

Go on until both players have collected five prizes.
