

you need:

- a tape measure

Body measures

Which is longer?

- Your little finger or your thumb?
- Round your waist once or round your wrist 5 times?
- From your wrist to your elbow or from your elbow to your shoulder?

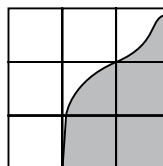

How long is?

- The distance between your eyes?
- Your widest smile?
- Across your head from ear to ear?

How big is your hand?

Draw round it here. Count the squares.

You can count two part squares as worth one whole one.

This counts as
4 squares
