Money Bags for 2 players

Aim

In this game you are aiming to make 25p from some or all of the coins in the purse.

First of all

Share out the coins.

When it's your turn

Choose one of your coins and put it in the money bag.

If you **can't** make 25p from the coins in the bag (all or some of them) your turn is over.

If you **can** make 25p from the coins in the bag (all or some of them):

- you win those coins, so take them and put them near you
- leave the other coins in the bag
- put one more of your coins in the bag

The end of the game

When all the coins are used up, the game is over.

Who has won most sets of 25p? That person wins the game.

Sample game

Pavel put a 20p coin in the bag. Then he took out the 20p and 5p (because they make 25p), but left the 10p coin.

Then he put 5p into the bag.
