

you need, for each player:

- 2 counters
- 1-3 dice
- pencil and paper

Pounds

for 2 players

First of all

Put your counters on the stars.

When it's your turn

Roll the dice and say the number.

Move your counter that many steps. (You can move in either direction.)

You score the coin you landed on. Work out your total so far

The end of the game

Go on until one of you has a total of £1 exactly.

That person wins.

(If you both go over £1, there is no winner.)

Sample game

Nazram's totals went like this:

5p 10p 15p 25p 35p
40p 50p 55p 60p 70p
90p £1

He won the game.
