

# Fish

## Learning Intention

To reinforce groupings within numbers to 12  
To practice addition and subtraction facts to 20.

## Aim of Game

First player/pair to cover all the fish on their game board.

## Players need

Fish board (individually  
or in a pair)  
Counters  
Two 1—6 dice

## Rules of the game

1. Roll the two dice and add the two numbers together.
2. Players get to cover up two numbers that make the total.  
For example: If total is 8 then could cover 1 and 7, 2 and 6, 5 and 3 or 4 and 4.
3. Cover one combination of numbers each roll.
4. If a player can't cover any numbers then they miss a turn.

## Variations

- Cover more than two numbers per dice roll or as many combinations in one roll.
- Use of addition and subtraction combinations to make total.

Based on original version 'Kiwi game' created by Vince Wright (1990).  
Special thanks to Vince for allowing this activity to be placed in this games selection.
